

July 30th-August 3rd cont...

TRAVELING ARTIST (4th-6th)

As you travel to different time periods, countries and cultures, you will not only learn about a particular form of art, but also about the importance of artistic expression. From the geology of the precious stones used in ceremonial Aztec masks to the mathematics of creating Russian Matryoshka dolls that can perfectly nest inside of each other, every day of camp immerses you in a completely new culture.

SURVIVOR (4th-6th)

This camp is a hands-on exploration of wilderness survival. Form tribes and compete in fun Survivor challenges to collect clean water, identify edible plants, find your way with a compass, build a shelter and signal for help. Survival is all about attitude, how will your team survive?

STEAM (7th-9th)

Science, technology, engineering, art, and math merge together as you jump into the Project Adventure Makerspace! Design, experiment, build, and invent! Construct, test, and explore using out of the box thinking. We will have Makey-Makey boards, craft supplies, hardware, tools and so much more... what you create is up to you!

BIG IDEAS Summer Camp

Curiosity, creativity and innovation come alive at Project Adventure's Big Ideas Summer Camp. Immersed in STEAM-rich experiences, students envision, design, build, experiment, program, create, and explore. We foster active, curiosity-driven learning by giving students the opportunity to engage in meaningful ways, using real tools in our hands-on workshops.

Summer is the time to get active! With trips to Stone Pond, group games, free play and sports integrated into our daily schedule campers are sure to be tired by the end of the day! Each week we will embark on a new adventure as we get out and explore new and exciting places with our Friday field trips.

At

Summer Camp

Creativity, innovation and fun are the foundations of all our activities. It is our goal to help campers soar academically and socially, by creating programming that engages their mind, entices them to ask questions, guides them to search for answers and promotes healthy physical activity.

Our Campers...

- Go on Adventures
- Discover New Talents
- Learn Songs & Chants
- Use Their Imagination
- Get Inspired
- Explore Creativity
- Go on Weekly Field Trips
- Play
- Investigate New Ideas
- Enjoy Time at Stone Pond Beach

BIG IDEAS Summer Camp

Create - Explore - Invent - Experiment

July 2nd~August 3rd

7:30am~5:00pm

Open to Students
Entering Grades 1st-9th

Summer Camp Located at
Marlborough School
41 Fitch Court
Marlborough, NH

July 2nd-July 6th

INNOVATION Laboratory (1st-3rd)

Let your imagination go wild as we invent, experiment, brainstorm, and problem solve! From doodle bugs to rockets, there is no limit! All great inventors have started somewhere... let your adventure begin at the Innovation Laboratory!

Super Hero Training Camp (1st-3rd)

Develop your super hero alter ego as we create super hero costumes, train to safely use superpowers and testing your powers in supercharged obstacle courses! Find inspiration by creating comic books, solving riddles and saving the world by getting involved in your community!

Time Travelers (4th-6th)

Have you ever thought about taking a step back in time? Join your friends on an adventure of a lifetime that brings you through the many different decades. From the roaring 20's, to the groovy 60's... your time spent at camp is sure to be a blast from the past!

WORLDLY MYTHOLOGY (4TH-6TH)

Have you ever heard of a Aivavata, Gamayun, Androsphinx or a Madremonte? These are just a few of the mythical creatures that exist in stories from around the world. Explore these great stories and find out for yourself if you believe.

TECH SQUAD (7th-9th)

From making your own music videos with extreme effects, exploring the endless possibilities of our Makey-Makey boards, creating robots, to designing your own website, when you are on the tech squad your mind is the limit!

July 9th-13th

SPORTS UNLIMITED (1ST-3RD)

Do you have a love for sports? Join the team, train, practice, develop new skills, and find confidence in yourself! We will take the time to dive into the rules of the games, practice techniques, and gain the skills to work as a team.

DISCOVER THE WILDLIFE (1st-3rd)

Investigate the diversity of the planet as globe-trotting artists! From the arctic to the desert, you will revel in the complexities of different ecosystems through creative, hands-on art projects that inspect the most intricate environments of the globe.

Super Hero Training Camp (4th-6th)

Develop your super hero alter ego as we create costumes, train to use superpowers, engineer super cars, and testing your powers in supercharged obstacle courses! Find inspiration by creating comic books, solving riddles and saving the world by getting involved in your community!

STEAM (4th-6th)

Science, technology, engineering, art, and math merge together as you jump into the Project Adventure Makerspace! Design, experiment, build, and invent! Construct, test, and explore using out of the box thinking. We will have Makey-Makey boards, craft supplies, hardware, tools and so much more... what you create is up to you!

Master Chef Cooking (7th-9th)

Asian to Mexican, Italian to American, appetizers to desserts, main dishes to snacks... We will be making it all during Master Chef Cooking week! Learn the art of chopping, mixing, kneading, grilling and baking as we explore all things culinary.

July 16th- 20th

FANTASTIC BEASTS (1ST-3RD)

Mermaids, unicorns, dragons, trolls... Let's discover their world to know more about these mythical creatures and their mysteries. Recreate and rediscover the power of these ancient legends, folklores and crypts!

EXPLORATOPIA (1ST-3RD)

Have you ever dreamed of becoming one of the great explorers? Join us as we explore the many wonders of the world around us. There is no telling what you will find when you put your explorer hat on and open your eyes!

SPORTS UNLIMITED (4TH-6TH)

Do you have a love for sports? Join the team, train, practice, develop new skills, and find confidence in yourself! We will take the time to dive into the rules of the games, practice techniques, and gain the skills to work as a team.

CHOPCHOP Cooking (4th-6th)

Join us as we chop, whisk, dice, knead, mix, saute, and bake our way through the week. In this exciting camp you will gain a love for the kitchen as you learn how to decorate a cake and create simple meals you are sure to wow your family with!

DUNGEONS & DRAGONS (7th-9th)

Be transformed by the characters you create and the skills and abilities you develop. This light-hearted role playing game is a great escape into fantastical creatures and magical lands. We will also have the chance to develop our skills much deeper as you work on world creation, create your own story lines, and build your Dungeon Master skills.

July 23rd-27th

Mighty Jungle (1st-3rd)

Have you ever heard of the aye-aye? Or the okapi? There are so many fascinating animals and plants in the rainforest! Let's create our own rainforest as we research, create, and explore the many terrains of this wondrous forest.

SCRATCH PROGRAMMING (1st-3rd)

Have you ever wondered how they develop those amazing video games you love to play? Now you can be the creator! See the world of programming and games in a whole new light as you learn animation and computer programming that will have you creating your very own storyboard of animated characters!

build IT (4th-6th)

From drafting blueprints, creating a budget and material list, to utilizing real tools and skills as you build yard go-carts, a boat, or something amazing that you design yourself, we will learn to build things step by step and have fun along the way.

DESTINATION IMAGINATION Training Camp (4th-6th)

Creativity, teamwork and problem solving is what Destination Imagination is all about. Which challenge will you choose to take on with your team? Will it be technical, scientific, engineering, fine arts, improv, or service learning? Whichever is chosen, don't forget about instant challenge!

SURVIVOR (7th-9th)

This camp is a hands-on exploration of STEM of wilderness survival. Form tribes and compete in fun Survivor challenges to collect clean water, identify edible plants, find your way with a compass, build a shelter and signal for help. Survival is all about attitude, how will your team survive?

July 30th-August 3rd

SWASHBUCKLING PIRATES! (1st-3rd)

Swords, Pirate Hooks, Eye Patches, Wooden Legs & Parrots Galore! Dive into the deepest of the seas and take on the life and adventure of a pirate! Navigate the stars, read a compass, acquire knot tying skills, embark on treasure quests, solve ancient riddles, create your own ship, and set sail!

Construction Camp (1st-3rd)

From reading plans, creating a material list, to utilizing real tools and skills as you build a toy box, bird house or something amazing that you design yourself, we will learn to build things step by step and have fun along the way.
